EXAMINER'S STATEMENT OF REASONS FOR ALLOWANCE

1. This Office Action is responsive to Applicant's Response filed on 03/11/05.
2. Applicant's election with traverse of Species 1, Fig. 1, and claims 1-3, in the reply filed on 03/11/05 is acknowledged. The traversal is found persuasive and the requirement is therefore withdrawn.
3. Claims 1-4 are allowed.
4. The following is a statement of reasons for the indication of allowable subject matter:
The prior art of record does not disclose or render obvious a motivation to provide for an electrically variable power transmission as defined by the limitations of claims 1 and 3, including an input clutch; an output clutch; and a planetary gear set having a first member being continuously connected with a first electric power transfer mechanism, a second member being continuously connected with a second electric power transfer mechanism, and a third member being selectively interconnected with an input shaft or an output shaft; wherein, during a first range of operation, the input clutch connects the input shaft with the third member and the output clutch connects the output shaft with the second member, and during a second range of operation, the input clutch connects the input shaft with the second member and the output clutch connects the output shaft with the third member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
